PROJECTS

- **Find My Pets** <https://github.com/meyerbw10/Find-My-Pets>

Summary: An application that's aim is for users to Sign-up and List lost and Found pets in hopes to reconnect lost animals with their families

Responsibilities: I was a floater on this project and handled the Back-End & Front-End. Most of styling and handlebar connections as well as model creation with routes.

Technologies: HTML, CSS, Javascript, Bootstrap, Express, Heroku, MySQL and ORM

- **Travel Guide (Columbus)** <https://github.com/Galdronis/Travel-Guide>

Summary: A website that is a Guide to all the cool places and things to do in Columbus. Has a fun fact generator and Yelp Reviews pulled into the site.

Responsibilities: I handled the homepage and Navbar that went across the whole site. Homepage also brought in a Weather API

Technologies: HTML, CSS, Javascript, Express, Third Party API
